## SAVE ENERGY, SAVE MONEY

Everyone likes to have more money in their pocket. At GreyStone, we do all we can to help members save money.

One way we do this is by having some of the lowest-priced electricity in the state, according to the Public Service Commission's latest rate survey at [psc.ga.gov](http://psc.ga.gov).

We also save members money through our Wallet Watch Credit. In 2020, members have received more than \$16 million in Wallet Watch credits on their bills. That is on top of the \$23 million in capital credits members received this year.

GreyStone doesn't stop there. Members save money by saving energy as well. That is why we launched the GreyStone Power Marketplace this year.

You can purchase energy-saving items like smart thermostats, LED lightbulbs, showerheads and more at [greystonepowermarketplace.com](http://greystonepowermarketplace.com).

These ENERGY STAR-certified thermostats can save members on their power bills each month. One thermostat, the ecobee, includes enhanced energy savings with intelligent features for comfort when you're in the office or home, and savings when you're away. Ecobee claims it can save up to 23% annually on your heating and cooling costs.

On top of all these savings and credits, members can also take advantage of our partnership with Second Nature to purchase their air filters.

As a member, you receive your first filter free and 20% off all future filters. Plus, they are delivered straight to your home. Visit [secondnature.com/greystone](http://secondnature.com/greystone) to start saving.

Saving you money—now that is making life better.
