OPERATION ROUND UP

Each month, GreyStone Power members who participate in Operation Round Up elect to round up their power bill to the nearest dollar. On average, members give \$6 a year by rounding up their bill. Though this may not seem like a lot, when combined with the change given by all 23,240 members who participate, the impact is great to the community GreyStone serves.

Since GreyStone started participating in Operation Round Up in 1999, members have donated nearly \$6 million. These funds are then used to support nonprofit organizations throughout GreyStone's service area.

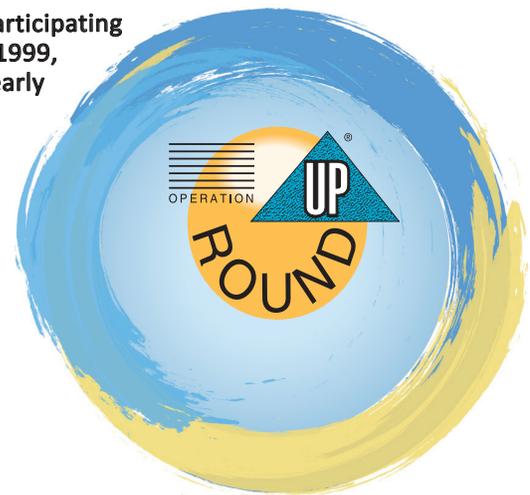

One organization that has received funds is Ferst Readers. Ferst donates books to children every month until their fifth birthday to promote childhood literacy, and to ensure children have developmentally appropriate books in their homes.

"Ferst Readers strengthens communities by providing quality books and literacy resources for children and their families to use at home during the earliest stages of development," says Debbie Ross, regional director for Ferst.

Through the donations received through Operation Round Up, Ferst has been able to increase the number of children enrolled in the program by 166 in Paulding County and 62 in Douglas County between March and August.

"Communities with robust Ferst programs have seen kindergarten readiness assessment scores rise significantly—in some cases as much as double, and schoolwide standardized reading scores increase by several percentage points each year," Ross adds.

If you would like to start participating in Operation Round Up, simply check the Yes box on your power bill.
